

WRITE CHEMICAL FORMULAS AND NAMES FOR THE COMPOUNDS THAT WOULD BE FORMED FROM THE COMBINATIONS BELOW. (For example, #1 is ammonium and bromide, #2 is ammonium and sulfide, #3 is ammonium and hydroxide, etc.)

Write very neatly! Formulas go on the left side and names on the right side.

	bromide	sulfide	hydroxide	carbonate	phosphate
ammonium	1	2	3	4	5
calcium	6	7	8	9	10
lead (II)	11	12	13	14	15
silicon (IV)	16	17	18	19	20
phosphorus (V)	21	22	23	24	25
