

WRITE CHEMICAL FORMULAS AND NAMES FOR THE COMPOUNDS THAT WOULD BE FORMED FROM THE COMBINATIONS BELOW. (For example, #1 is K and Cl, #2 is K and O, #3 is K and MnO₄, etc.) REMEMBER - YOU NAME IONIC COMPOUNDS DIFFERENTLY THAN COVALENT COMPOUNDS!! *You will have to supply the CORRECT charges and oxidation numbers.*

	Cl	O	MnO ₄	SO ₃	PO ₄
K	1	2	3	4	5
Ba	6	7	8	9	10
Fe (III)	11	12	13	14	15
C (IV)	16	17	18	19	20
N (V)	21	22	23	24	25
