

MYTHBUSTERS DVD QUESTIONS

On a separate sheet of paper, answer these questions to analyze one of the myths that was investigated on a *Mythbusters* episode.

If you are absent from class and are doing this assignment at home, you may watch any *Mythbusters* episode on the Discovery Channel or an episode online.

- 1) What myth was investigated?
- 2) Describe the experiments that were used to test the myth and the results that were found.
- 3) What controls were used in the experiments?
- 4) Draw a diagram to illustrate important information in testing the myth. Label your drawing with words/descriptions.
- 5) What conclusions did they come to about the myth?
- 6) Write a summary of at least four complete sentences in your own words.
- 7) Do some more thinking about this myth and how it was tested. Write at least one "on my own" question that you would like to ask the Mythbusters.
