Activities highlighted in yellow are on the class website at <https://tskinnersbec.edublogs.org/>. If possible, you should print these. You can read them from your device, but you will find that VERY DIFFICULT to use in class.

- If the activity is a lab and you are using your device in class to read it, Data Tables and Observation Questions MUST be copied onto notebook paper BEFORE you come to class for you to use.

Online textbook info is on Canvas, on the class website and on the first day class info sheet!

The Physics Aviary Games – Due Friday by class; assignment sheet is on the class website under the Lab tab. Instructions for turning in the assignment are on the sheet.
